

Lombody Burn Weight Loss Program

Our weight management therapy program is a sustainable approach to reaching your weight loss goals.

Feel your best, from the inside-out

Lombody Burn was specially formulated with the understanding of the connection between a mindful lifestyle and feeling your best, which is why we are thrilled to offer our patients this science-backed holistic approach.

Key Components

Naltrexone (oral, nightly)

Low Dose Naltrexone (LDN) can help burn fat and maintain lean muscle mass because of its ability to decrease insulin levels, therefore improving growth hormone levels in patients. It may also help normalize appetite and reduce hunger. Some studies have shown Naltrexone to reduce general inflammation throughout the body, which can make weight loss easier in certain patients.

Sermorelin (Sub Q injection, nightly)

Sermorelin Acetate is a "growth hormone-releasing hormone" (GHRH) that is produced naturally by the human brain to stimulate production and release of growth hormone by the pituitary gland. The increased volume of human growth hormone causes an increase in the production of Insulin-Like Growth-Factor-1 by the liver. During aging, GHRH declines, causing a decrease in the secretion of pituitary hGH which can erode health and vitality.

Lipo-Trim SL (Sublingual Oral Spray, 1x daily)

Lipo-Trim SL is a concentrated, sublingual combination of amino acids and B vitamins in a proprietary blend of *African-Mango Extract*, *Green Coffee Bean Extract*, and *Raspberry Ketone Extract*, that can help the body convert fat into energy. Because it's a sublingual spray, absorption is more efficient than taking oral vitamins which lose potency as they pass through the body's digestive system.

Everything but the Bagel, IV Treatment (dosage varies, optional weekly)

Our Formula 2 Drip is a special blend of low dose ascorbic acid paired with every critical vitamin and mineral you need to aid in improved digestive health and a speedy metabolism.

Liquid Gold, IV Treatment (dosage varies, optional weekly)

Our Liquid Gold is considered the "Gold Standard" for delivering intravenous vitamins and minerals directly to your bloodstream. Those who've received this treatment report feeling energized and have noticed tighter facial skin and an all-around healthy glow.

Program Options

1 Month Package

Includes one 1-month supply weight-loss kit (*Naltrexone, Sermorelin, Lipo-Trim SL*) and one initial appointment with Dr. Marino. Optional IV-Treatments to enhance therapy are available at an additional cost.

2 Month Package

Includes two 1-month supply weight-loss kits with increased dosages (*Naltrexone, Sermorelin, Lipo-Trim SL*), and an appointment with Dr. Marino at the beginning and end of your therapy. Both IV Treatments may be added to this package at a discounted rate, and would be administered monthly.

Our Lombody Burn weight loss program is a physician-supervised program designed to help every individual reach his or her specific weight loss goals. Our therapy uses a combination of "fat burning" injections and lifestyle changes to achieve optimum weight loss results. This therapy may also boost metabolism and help patients burn fat while feeling more energized.
